

Smart. Fast. Service.

Equipment Care

**ECOLAB**<sup>®</sup>

# Smart Care<sup>SM</sup>

A kitchen equipment care program so smart it pays for itself.

## **Our promise: We keep you up and running.**

Smart Care<sup>SM</sup> is an innovative program from Ecolab that is tailored for your critical kitchen equipment. Our goal is to keep your kitchen up and running. That's why we incorporate pre-scheduled maintenance, same-day repair service, and real-time asset management solution into this program.

## **Think big benefits with Smart Care<sup>SM</sup>.**

Smart Care<sup>SM</sup> is a truly proactive and comprehensive approach to kitchen equipment care that helps you:

- **Reduce your operational costs** through improved energy efficiency and less breakdowns.
- **Ensure food quality and safety** by running your equipment at peak performance.
- **Simplify your budget management** with predictable equipment expenses.
- **Maximize your return on invested capital** when you can make educated repair vs. replacement decisions with Unit-Trax<sup>SM</sup> asset management solutions.
- **Experience the peace of mind** that comes from keeping your equipment up and running.

## **Ecolab Equipment Care**

is dedicated to helping maximize your business results by providing innovative business solutions and superior service, delivered by our national team of talented and experienced service professionals.

As a devoted business partner, we strive to help you:

- Increase your uptime and productivity
- Reduce your operational costs
- Maximize return on your equipment assets

## **Smart Care<sup>SM</sup> helps bring your kitchen equipment management to the next level.**

It pays to plan ahead. By utilizing the Smart Care<sup>SM</sup> Program, you can catch minor equipment issues before they become major breakdowns that can disrupt your kitchen. Being able to track your spending by individual piece of equipment will also allow you to make informed decisions regarding the replacement of aging assets.

## **Smart Care<sup>SM</sup> is the solution for your success.**

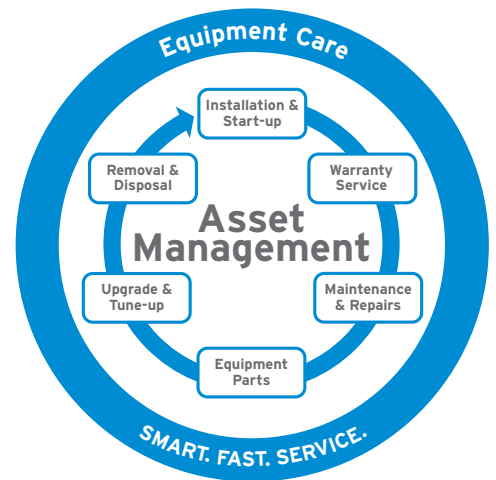

- Smart Care<sup>SM</sup> is tailored for your **critical pieces of equipment** which are key revenue drivers and have big impact on your operations.
- Our **Unit-Trax<sup>SM</sup> Asset Management** solution helps you regain the control over your kitchen operation with real time information about your equipment expense, condition and performance.
- We stock critical parts for your equipment on service vehicles and at local distribution centers to deliver **same day service** for emergency repairs.
- We provide **cleaning procedure** charts to your kitchen staff so they can be trained on how to properly maintain your equipment on a daily basis and help you save money.

## Keep your kitchen up and running

At Ecolab, we strive to help maintain smooth operations in your kitchen, reduce your operational costs, and protect your invested equipment assets through our innovative solutions and superior service delivered by our exceptional service team.
